

Opalescence[®] **BOOST**

NO LIGHT NEEDED

Opalescence Boost 40% is chemically activated, meaning it doesn't require a light or laser to whiten smiles. Safe and effective, Opalescence Boost 40% offers excellent in-office bleaching results in less than an hour.

- Chemically activated—no light needed
- 40% hydrogen peroxide
- Opalescence whitening gel includes PF (potassium nitrate and fluoride). Potassium nitrate has been shown to help reduce sensitivity. Fluoride has been shown to help reduce caries and strengthen enamel. Together they help to improve the overall health of the teeth.^{1,2,3,4,5}
- Syringe-to-syringe mixing ensures product freshness
- Distinct red color aids proper placement and ensures complete removal
- Two 20-minute applications for a total treatment time of 40 minutes
